Thompson . . . quality construction has been famous since 1904.

WOOD LAPSTRAKE CONSTRUCTION

- Finest quality 5-ply "armorized" 13/32" lapstrake planking; bolted together; sealed with permanent rubber sealer; glass-smooth phenolic overlay laminated to strakes to protect hull against checking or grain rise.
- Hull full-ribbed bow to stern with 3/4" steam-formed white oak ribs on 6" centers white oak stringers and sister keelsons (Models 1700, 1800, 2000).
- Interior coated with pentachlorophenol preservative before finishing.
- Transom 15-ply laminated plywood faced with Philippine mahogany; 3-piece laminated keelson; gunwales heavy white oak, vinyl-clad covering boards.
- Constant quality control inspection through each stage of fabrication assures customer satisfaction.

FIBERGLASS CONSTRUCTION

- Finest quality Gel coat.
- Hand lay-up of successive layers of fiberglass roving and cloth. Mat and roving laid with uniform, precision-controlled thickness and thoroughly resin saturated.
- Double strength stern, keel, chine with molded-in reinforcing.
- Rugged wood transom and stringers provide built-in chambers for foam flotation.
- 1/2" marine plywood floor surfaced with extra-heavy vinyl carpeting.
- Constant quality control inspection through each stage of production assures customer satisfaction.
